## ILLINOIS HOME ENERGY ASSISTANCE PROGRAM

The Illinois Home Energy Assistance Program is designed to help income eligible households meet the rising cost of home energy.

The amount of assistance depends on:

- whether or not the household pays for its home energy costs directly or the home energy costs are included in the rent;
- the type of home energy fuel, if the household pays directly;
- the region in which the household lives.

If you apply for help under the IHEAP Program, you should receive a letter by \_\_\_\_\_ telling you if you are eligible for help and the amount of assistance available. If you are not eligible you should be told why.
